

Functional Requirements

Overview

The HDI Prediction System enables users to predict the Human Development Index (HDI) category based on socio-economic indicators.

Functional Requirements

FR-1 User Input

The system shall allow users to enter:

- Life Expectancy
- Mean Years of Schooling
- Expected Years of Schooling
- Gross National Income (GNI) per Capita

FR-2 Data Validation

The system shall validate user inputs before prediction.

FR-3 Prediction

The system shall predict the HDI category using the trained Machine Learning model.

FR-4 Display Result

The system shall display the predicted HDI category on the web interface.

FR-5 User Interface

The system shall provide a simple, responsive, and easy-to-use interface.

FR-6 Model Loading

The application shall load the trained model automatically during startup.
