

Test Plan

Objective

The objective of testing is to verify that the HDI Prediction application functions correctly and provides accurate predictions based on user inputs.

Scope

The following components were tested:

- User Interface
- Input Validation
- Machine Learning Model
- Flask Backend
- Prediction Output

Testing Types

- Functional Testing
- Integration Testing
- User Interface Testing
- Model Prediction Testing

Expected Outcome

The application should accept valid inputs, predict the correct HDI category, and display the results without errors.
